ABRHAM ABABU

Full-Stack Developer

Addis Ababa, Ethiopia | +251 943113823 | abrhambest7@gmail.com | Portfolio | LinkedIn

SUMMARY

Full-stack developer with 3+ years of experience shipping production web applications across React, Next.js, TypeScript, NestJS, Node.js, Laravel, and PostgreSQL. Background spans SaaS platforms, ERP systems, booking platforms, and AI-driven workflow tools, working across startups, freelance contracts, and cross-functional agile teams.

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, Zustand, Zod

Backend: Node.js, Express, NestJS, Laravel, Spring Boot, Django

Data: PostgreSQL, MySQL, MongoDB, Supabase, Vector Databases

DevOps & Tooling: Docker, CI/CD, VPS, cPanel, Jest, Jenkins, Git, AWS

Data Science: Python, NumPy, Pandas, MATLAB

AI & Automation: RAG pipelines, n8n workflow automation

EXPERIENCE

Software Developer & AI Solutions Designer (Contract)

AfterQuery — Remote — San Francisco, US *Mar 2026 – Present*

- Use Python, NumPy, Pandas, and MATLAB for data analysis and model evaluation tasks supporting AI solution design.
- Build and maintain web-based applications and design AI-driven workflows and prompts to improve product usability.
- Collaborate cross-functionally on software development projects from planning through delivery.

Senior CTO (Part-time)

Halink Tech — Addis Ababa, Ethiopia *Mar 2024 – Present*

- Set overall technical direction and ecosystem architecture for the company's product line on a part-time basis.
- Oversee delivery of software and projects that are live and in active use by real clients and end users.

Senior Software Engineer

Elisoft Solution PLC — Addis Ababa, Ethiopia *Feb 2026 – Aug 2026*

- Built an ERPNext procurement module for JSI Research and Training Institute, an NGO client, with multi-user, threshold-based approval workflows across nine procurement sections.
- Developed a SaaS platform for Zemen Insurance using Next.js and Laravel.
- Built responsive Next.js frontends for ERP modules and other client projects.

Lead Full-Stack Developer, Skiwai Platform

Hamer AI Ethiopia PLC — Addis Ababa, Ethiopia *Jun 2025 – Jul 2026*

- Lead development of Skiwai, a platform connecting startup founders with advisors and investors, built on Next.js, NestJS, and PostgreSQL.
- Integrated Stripe and Chapa for payments and implemented RAG-based search with n8n automation.

Frontend Developer (Contract)

Zagoal PLC — Remote — Washington, DC, US *Jan 2026 – Present*

- Contribute frontend features to a large-scale internal SaaS project supporting company operations.

Full-Stack Developer

Safaricom Talent Cloud — Gebeya Inc. — Addis Ababa, Ethiopia *May 2025 – Oct 2025*

- Completed a 5-month intensive program building and deploying an MVP with Next.js, Node.js, Express, and PostgreSQL.
- Worked in agile sprints using Jira; placed 2nd in an internal hackathon for a fuel-locator app.

Web Developer & Operations Support

YAB Chemicals — Addis Ababa, Ethiopia *Feb 2025 – Nov 2025*

- Designed, built, and deployed the company's public website using React and Next.js.
- Maintained site content and supported day-to-day operations.

Frontend Developer (Intern → Contractor)

Atlas Computer Technology — Addis Ababa, Ethiopia *Aug 2024 – Dec 2025*

- Built and maintained the frontend of a House Rent Management System for Amhara Housing Corporation and Hibret Bank using React, Next.js, and shadcn/ui.
- Converted a 5-month paid internship into an extended contractor role based on performance.

Full-Stack Developer

Formidable — Addis Ababa, Ethiopia *Jun 2023 – Apr 2025*

- Built Wedet, a tourism booking platform for Ethiopia, owning full-stack development of tour listings, bookings, and user management.
- Used Next.js, Supabase, and Docker to deliver a scalable, production-ready booking workflow.

Web Development Intern

CodSoft — Atlanta, GA, US (Remote) *Jun 2023 – Jul 2024*

- Built responsive websites with HTML, CSS, and JavaScript, and gained hands-on debugging and UI experience.

SELECTED PROJECTS

PTGR Token Platform — *ptgr-front-end.onrender.com*
Built a secure token-holder platform for a hackathon, supporting investor onboarding and identity verification for users across 40+ countries. Next.js, NestJS, Better Auth, Zod, and Didit KYC integration.

Fuel Finder — *fuel-finder-frontend.onrender.com*
Full-stack app with a React frontend and a Node.js/Express API, including real-time data processing and authentication.

Addis Ababa House Rental Agreement System — *aahrams.onrender.com*
Senior capstone project digitizing house rental agreement management for a sub-city administration. React, Node.js, Docker, Zod.

Skiwai — *skiwai.com*
AngelList-style platform for startup founders, advisors, and investors. Next.js, NestJS, PostgreSQL, Stripe, Chapa, RAG, n8n.

House Rental Management System — *act.com.et*
Web platform for Amhara Housing Corporation and Hibret Bank to manage rented properties, tenants, and payments. React, Next.js, shadcn/ui, Zod, Zustand.

Wedet App — *wedet-fe.vercel.app*
Tourism booking platform connecting Ethiopia's tourism industry, with tour listings, bookings, and user management. Next.js, Supabase, Docker.

YAB Chemicals Website — *yabchemicals.com*
Production website for a chemical import and supply company, covering full UI/UX design and frontend implementation. React, Next.js.

Elisoft Solution Website — *elisoftsolution.com*
Dynamic, fully responsive company website built with Laravel, with customizable features tailored to business needs.

Zagoal SaaS Project — *zagoal.com*
Frontend contributions to a large-scale internal SaaS platform supporting company operations.
